Attachments: Get it now.

Wenona,

What can we use this type of grant for? Do you think I can handle writing up a grant like this one ;) I am taking good notes here at the Mining Conference and am trying to collect all the presentations I can. The more I learn about mining the sicker I get. I am getting so nervous now about the Pebble Mine. We went to see Mt. Rushmore yesterday and that was nice. First time I experienced that type of thing. Today we are going to see Crazy Horse Monument. There is a banquet tonight. I dont know if I should go because I not a "people" person. I hate large crowds and I dont know what it is. I get irritated and think I need anger management. LOL. Anyhow we start heading home tomorrow evening. We fly from here to Salt Lake City then straight to Anchorage from Salt Lake City. Happy for that. I will be back in the office on Tuesday. I cant believe I spent like 250 bucks on this product that is new. Its called Seacret. It works wonders though. Did you get my text yesterday?? Have a nice day.

Always-ME lol

Grace Ishnook
